PEARLS VI 2017 COURSE 41ST FLOOR LANDSCAPE VIEW

IN THIS ISSUE

Dear LSU OMS Alumni and JKOMSF
Members

There is much to report since our
last Newsletter, Winter 2016

From your JKOMSF President, Tooley Towns, DDS

During this past Pearls VI course, the JKOMS Foundation had a banquet to honor Dr. Jack Kent with a bronze sculpture which was done by one of our senior residents, Dr. Shahrouz Zarrabi. For those of you who were not present, you missed a great party. From 41st floor of the New Orleans Marriott hotel we celebrated while overlooking the French Quarter and The Mississippi River with its paddle wheelers. Nearly 200 people were present to honor Dr. Kent and his contributions to the program from 1973–2008. His family, friends, and past residents from nearly 50 years were present to roast and toast him. There were plenty of laughs,

compliments, and accolades about Jack and all he has done for us in the program. Jack and Virginia then unveiled the beautiful sculpture that was covered with an LSU flag. The sculpture will reside in the Oral and Maxillofacial Surgery department of LSUSD and then transferred to the new clinic building next spring. The sculpture is a reminder to students, residents, and faculty of the contributions Jack has made to the Oral and Maxillofacial Surgery program and the OMS profession that we are all honored to be part of. Dr. Kent's address was heartfelt and thankful.

The Unveiling

Sculptor Dr. Shahrouz Zarrabi (Chief) and Dr. Jack Kent and Mrs. Virginia Kent and more pics included can be found on page 6 of the newsletter.

Thanks So Much To Our JKOMSF Donors

DIAMOND (\$100,000+)	PLATINUM (\$50,000-\$99,000)	GOLD (\$25,000-\$49,999)
SILVER (\$10,000-\$24,999)		BRONZE (\$5,000-\$9,999)
FRIENDS (\$1,000-4,999)		

Donors' Acknowledgements

Six levels of giving page 17 & 18 and the Treasure / Secretary update on page 12 of the newsletter.

He was so pleased to see so many alumni and apologized to a couple he did not recognize. He stated "If this is what it takes to get us all together, let's keep honoring each other each year because there are so many alumni who have contributed so much to the program and are so deserving of recognition. We are all united and each of us, all practitioners and faculty, are equally a small part of LSU OMS history. This sculpture represents each and every one of us. This is History, This is LSU OMS"

JKOMFS Dinner and Roast
honoring
Dr. Jack Kent

Friday, April 7, 2017

THE UNVEILING

From your Chairman,
John Neary, DDS, MD, FACS

PROGRAM UPDATE

Greetings Alumni! I would like to report to you that the program is in good shape. We recently graduated five residents and started training four new ones. These young men were four of our five top choices in the match. Their incoming credentials are the most impressive the program has ever seen on paper. It is yet to be determined how their surgical skills develop. Their photos and information is listed to the right of page. We continue our strong presence in the new medical center (Charity's replacement), recently being awarded the **BEST** consultative service by the Emergency Department at their end of the year ceremonies.

The battle continues with insurance companies to approve orthognathic and other elective surgery to train our residents to LSU standards. Research activities have been reinvigorated and you will see many publications coming out from LSU in the near future. With the state of Louisiana privatizing healthcare, the LSU OMFS program has fared about as well as we could have hoped for. The Baton Rouge portion of the program run out of Our Lady of the Lake is as busy as ever with six of our 32 residents stationed there. The New Orleans portion includes the large presence at University Medical Center, Children's Hospital, Touro Infirmary, West Jefferson Hospital, the faculty practice on St. Charles and the new clinic next to the dental school scheduled to open next spring. It is the replacement of our clinic lost in Katrina and will contain two JCAH approved outpatient surgery rooms.

We appreciate the continued support of the JKOMS foundation, as virtually all of our salary for faculty, used in resident education, is funded by the hospitals with very little help from the state.

2017 OMS Graduated Chiefs

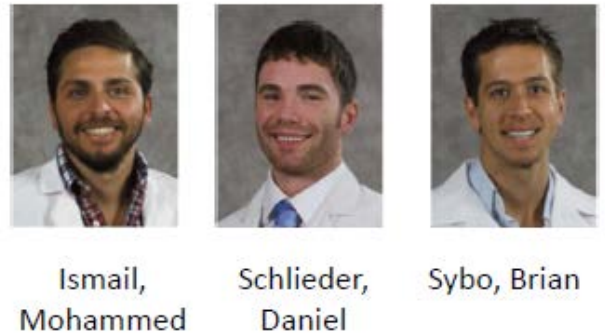

Oral and Maxillofacial Surgery

Dr. Dastoury is located in Los Angeles, CA at the Inland Cosmetic Surgery Fellowship. Dr. Hastings is located in Boise, Idaho at Whitewater Oral Surgery Group. Dr. Mayes is located in Dallas, TX at the Deca Dental Practice. Dr. Park is located in Birmingham, AL at the Head & Neck Oncology & Microvascular Surgery Fellowship. Dr. Zarrabi is located in Newport Beach, CA where he will practice in multiple locations.

2017-2018 OMS Chiefs

Sixth Year

First Year

2017-2018 First Years

FACULTY UPDATE

Dr. Ray Lim joins the LSU OMS Faculty as

a full time Assistant Professor. Dr. Lim achieved his Bachelors in Biological Sciences at California State University- Sacramento. He then completed his Doctorate of Dental Surgery at University of Southern California School of Dentistry in 2007. While at USC, Dr Lim was intimately involved in student government and serving as the Class President the Class of 2007. He then furthered his surgical education by doing an Oral & Maxillofacial Surgery Internship at L.A. County + USC Medical Center, a Level One Trauma Center, and one of the busiest hospitals in the country.

Dr. Lim entered the LSU OMS residency in 2009. He earned his Doctorate of Medicine from LSU School of Medicine - New Orleans in 2012, then completed his General Surgery Internship in 2013 from LSU Department of Surgery.

Dr. Lim was trained in all aspects of Oral & Maxillofacial Surgery. This included procedures in dentoalveolar/implants, bone and tissue regeneration, sleep-apnea surgery, head & neck pathology, with emphasis on trauma, cosmetic surgery, orthognathic/corrective-jaw surgery, and all facets of TMJ surgery. During his Chief year, Dr. Lim also had an opportunity to be a visiting Resident-Surgeon with the Maxillofacial-Plastics-Orthodontic (MPO) Department in Leon, Nicaragua. Along with Drs. Neary & Kim, he was able to treat many complex craniofacial and pathological conditions such as Goldenhar Syndrome, cleft-lip + palate, and a carotid body tumor. He has authored a

chapter in The Atlas of Oral and Maxillofacial Surgery. In January 2017 he became board certified. During his free time, Dr. Lim enjoys spending time with his wife Amber, their 2 kids, and enjoying the New Orleans culture.

Dr. Dane St. John joins the LSU

OMS Faculty as a full time Assistant Professor. Dr. St. John completed his undergraduate education at the University of Pittsburgh prior to attending dental school at Harvard School of Dental Medicine. Upon completion of his doctoral training Dr. St. John entered OMS residency at the University of Alabama, Birmingham. Under the direction of Dr.'s Peter Waite and Patrick Louis he completed the requirements for his medical degree, an internship in General Surgery, and the surgical demands of Oral and Maxillofacial Surgery. Upon Completion of training Dr. St. John was commissioned to active duty in the United States ARMY and deployed to combat operations in Iraq. During this time he also served as Assistant Program Director for the OMS residency training program at William Beaumont Army Medical Center at Fort Bliss. This exposure to education motivated him to pursue a career in academic practice

Dr. St. John is board certified in Oral and Maxillofacial Surgery and has clinical and research interests in Temporomandibular Joint Disease/Orofacial Pain Syndromes, Maxillofacial Trauma, Dental Implants and Oral Reconstruction, Obstructive Sleep Apnea, Oral Pathology/Medicine and Anesthesia.

RESEARCH UPDATE

Our New Orleans Department has revived its long and storied history as a center of academic research with a series of both granted and department-funded research the past 2 years. The Department is currently working on a number of projects with current research grants surpassing \$130,000 with nearly every full-time faculty actively involved in research. Residents and faculty have been presenting this at both national and international meetings. Research abstracts and posters were recently presented at the 2016 AAOMS National Meeting in Las Vegas, the 2017 ACOMS meeting in Vancouver, and the Clinical and Scientific Innovations for Oral and Maxillofacial Surgeons in Chicago.

ON GOING RESEARCH

A prospective randomized clinical trial to determine the equivalency of nasal cannula and modified nasal and hood capnography detection methods in an open airway system. Comparative interracial anthropometric facial measurements. Comparison of hybrid maxillomandibular fixation system with Erich arch bars. Risk factors for severe complications of operative mandibular fractures. The effect of mandibular fracture treatment on nutritional status – a prospective study. Establishing clinical guidelines for the initial care in maxillofacial infections. Patient management errors in odontogenic infection. Accuracy and efficiency of in-house 3D modeling and pre-op plate adaption for mandibular fractures. The effect of closed reduction and maxillomandibular fixation on nutritional status. Clinical diagnostic accuracy of oral & maxillofacial pathologic lesions. Quantitative analysis of the average thickness of the outer cortex of cranial bone grafts. Comparison of physical and technical characteristics of commonly used maxilla-mandibular plating systems. Relationship between pre-operative pulse volume recording result for anterior tibial and posterior tibial arteries and post-operative fibular free flap donor site morbidity. Correlation between tumor size, T stage and surgical margin for oral and oropharyngeal SCC. Does procalcitonin guidance affect duration of antibiotic therapy and hospital stay in patients with head and neck infections? A randomized controlled opened label trial. Can secondary alveolar bone grafting to cleft palate with allogeneic bone allow for successful bridging of bone across cleft site, closure of oral – nasal fistula and irruption of canine as measured clinical and radiographically? Intra-specialty survey regarding isolated mandibular fractures management. CLEFT: Utilizing 3D printed anatomical models as in adjunct for teaching dental students. Prosthetic rehabilitation in oral cancer patients with free mandibular reconstruction: Prospective cohort study, IRB review pending. Practice patterns among OMS in U.S. regarding management of isolated mandibular fractures. Effects of tumor size and stage on the status of final pathologic margins and adverse features.

Website News and San Francisco Alumni Cocktail

From Wes Emison, DDS, MD

JKOMSF News – The Jack Kent Oral and Maxillofacial Surgery Foundation (JKOMSF) and Louisiana State University Oral Maxillofacial Surgery Alumni Association (LSUOMSAA) website provides a convenient way for our alumni and friends to stay up to date with the training program at LSU in New Orleans. It provides an online avenue to learn about the goals and achievements of both organizations. The website also provides information on upcoming courses and meetings, current news, fund raising efforts, and educational accomplishments of the Foundation and Association membership activities. It also allows registration for both the Oral and Maxillofacial Surgery Pearls Course and LSU Oral and Maxillofacial Surgery Review Course. The JKOMSF and LSUOMSAA website is managed by Michele Holmes who is Coordinator of Board Relations and Events

Program Manager of the JKOMSF. Please visit us at <https://www.jkomsf.com>

Party Time in San Francisco – All LSU Alumni and Friends should take the opportunity to meet at Jillian's, a large, very nice sports bar on Thursday, October 12, 2017 during the AAOMS meeting in San Francisco. Please join us for an informal get together at 6 pm. Jillian's website is <https://www.jillianssf.com/>

Jillian's at Metreon is a lively venue featuring California cuisine, expansive sports viewing, multiple bars, tournament-quality billiards, and beautiful meeting and event spaces. Conveniently located within San Francisco's Metreon, across from the Moscone Center and blocks away from Powell Street Bart and Muni Stations, Jillian's is the perfect place to host your next event, catch a game or experience an evening out on the town!

From your Old Chief

2017 LSU OMS Review Course – we have moved the course from the Convention Marriott to Harrah's New Orleans Hotel on Poydras street. The room rate is locked in at \$169 until Oct. 9 October 30–November 4 is the course date and the brochure with all the information on speakers and registration is on the **JKOMSF WEB SITE** if you did not get a brochure by mail.

Next Year's Pearls Course – In 2018 we will take a one year break from the French Quarter Fest and combine our meeting with ACOMS later in April. This promises to be an outstanding meeting with ACOMS leading the way. The meeting is a 3 day Saturday–Sunday–Monday education with 20 speakers, a joint ACOMS–Pearls reception on Saturday and a full evening banquet at the World War II Museum on Sunday. Please note proposed topics below. Speakers are being selected and we will have the full program and registration fees with our year-end newsletter.

ACOMS 39TH Annual Scientific Conference and OMS Pearls VII April 21-23, 2018

New Orleans: The Balance of Work and Fun – Combine New Technologies with Fundamental Surgical Principles

Co-Chairs: Brian Farrell, DDS,MD and Tara Aghaloo, DDS, MD, PhD

- Expanding Applications of VSP in Orthognathic Surgery
- Evolution to Current Temporomandibular Joint Management
- Emerging Technology with Surgery and Biomedical Engineering
- Digital Dentistry: Impressions, Scanning, Temporization
- Update on Obstructive Sleep Apnea
- Bone Grafting: Past, Present, and Future vs. BMFs
- Full Arch Fixed with Tilted Implants – Non-Guided
- Full Arch Fixed with Tilted Implants – Guided
- Changing Treatment Paradigms in Implant Dentistry
- Current Technology to Accurately Place Implant for Prosthetic Success
- Applying Navigation with Implant Dentistry
- Zygomatic Implants
- Improving safety for Anesthesia in the OMFS Office
- Understanding Anesthetic Risk and Optimizing Patient Management
- Morbidity / Mortality: Emergencies and Sedation Techniques
- Anesthesia Simulation Training

From your Secretary Treasurer

Eric Geist, DDS, FACS

Best of summer greetings to all of our generous donors and alumni. The JKOMSF currently has a balance of **\$1,575,540.00**.

The balance reflects revenue of \$71,057.00 over and above the gifts that our donors have contributed. Additional revenue was derived from the courses that we sponsor (Pearls and the Review Course) in addition to our investment gains. Projects that the JKOMSF has funded thus far include new equipment for the LSUOMS program, new faculty support, and a unit named for the JKOMSF in the new pre-doctoral clinical lab at the LSU Dental School. We also have outstanding pledges to the Foundation totaling \$215,116.00

The Directors of the JKOMSF Board are committed to maintaining a core balance of every dollar that has been donated and only dispersing revenues that exceed that amount by a factor, which will afford the opportunity for continued growth of the corpus. As we approach our 10-year anniversary in 2018, it is clear that the JKOMSF has made a significant difference in the quality of the Oral and Maxillofacial Surgery program at LSU and has strived to improve the status of our specialty in the eyes of the dental students.

Alumni News

From your Alumni President,

Dale Misiak, DMD

- ✦ Tony Indovina, DDS, an important part time faculty member at both the LSU School of Dentistry and our teaching hospitals for 40 years will be inducted into the International College of Dentists this fall at the ADA meeting in Atlanta. Congratulations Tony.
- ✦ John Neary, DDS, MD, FACS is now permanent LSU OMS Chairman and holder of the James R. Peltier Chair.
- ✦ Brian Farrell, DDS, MD is the co-chair of the 2018 ACOMS joint meeting with Pearls VII
- ✦ Brett King, DDS was awarded the Research Excellence Award for 2017 by the LSU School of Dentistry and the Center of Excellence in Oral and Craniofacial Biology
- ✦ John Wesley (Wes) Emison, DDS, MD is pleased to announce that our practice facility known as Los Gatos Oral and Maxillofacial Surgery has been recently accredited by the American Association for Accreditation of Ambulatory Surgery Facilities (AAAASF). This is an important milestone for our practice demonstrating our commitment to providing the highest levels of quality care to our patients.
- ✦ Recent Alumni and Faculty who are now ABOMS certified are Ray Lim, DDS, MD, Matt Fowlkes DDS, MD, Cameron Cavola, DDS, MD, Gary Seeba, DDS, MD, and John Kent III, DMD who has had the distinction of passing the full board, written, and oral exam twice.
- ✦ Dr. Beomjune Kim and Waleed Zaid have obtained a "Certificate of added qualification" which is offered by the American Board of Oral and Maxillofacial surgery in Head and oncology and Microvascular reconstruction, and were among the first group of surgeons who qualified to take the test, and passed the exam.

Friends, please send Michele news – don't be bashful, you never were as a resident

We are updating our mail and email addresses and preferred phone number contact of all alumni. May we ask each of you to send your preferred mail address, email address, and phone number to Michele Holmes. If you prefer not to have any of this information on our master list, please advise. Thank you.

From your JKOMS Board

The JKOMS is approaching a ten year anniversary. Our goal in the next 12 months is to make a serious challenge at achieving \$2 million. Two thirds of our alumni and many friends are responsible for the success to date. If you are an alumnus who has been unable to join JKOMS or has reservations, please give any Board member a call or talk to any of those you trained with who have donated. The JKOMS needs you. The department you cared for needs you, and the training of future residents needs your help. **The residents who have donated speak with one voice – they understand that residents of the future will not have all the benefits they enjoyed without continued financial support. They support the program, not because of who the faculty are, but because this is their program, this is LSU. JKOMS donors understand one thing, where would any of us be without the residency education from LSU.**

I PLEDGE TO DONATE _____ OVER ____ YEAR.

LEVELS OF GIVING

DIAMOND	OVER \$100,000
PLATINUM	\$50,000 - \$99,999
GOLD	\$25,000 - \$49,999
SILVER	\$10,000 - \$24,999
BRONZE	\$ 5,000 - \$ 9,999
FRIENDS	LESS THAN \$5,000

SIGNATURE _____

IRA Charitable Rollover Now Permanent

Make a tax-efficient gift to JKOMSF from your IRA!

Individuals who are age 70½ or older can make gifts of up to \$100,000 directly from their IRA accounts to one or more qualified charities, without paying federal income tax on the withdrawal. If you wish to make a gift or if you're fulfilling an existing pledge to the JKOMSF, you may want to make a Qualified Charitable Distribution. Here are the specifics:

- Donors must be age 70½ or older at the time the gift is made.
- Donors must request a direct transfer of funds to a qualified public charity. It is important not to withdraw the funds before making a gift.
- Gifts cannot be used to fund a gift annuity or charitable remainder trust.
- Each donor may give up to \$100,000 per year.
- Gifts can be used to satisfy the donor's required minimum distribution.
- Donors who choose to exclude the distribution from income on their federal tax returns will not receive a charitable income tax deduction.

The JKOMS Foundation does not provide legal or tax advice. Please consult your own professional tax advisor about the best way to take advantage of this opportunity. Please call your tax advisor for professional advice.

Thank you, Your JKOMSF Board of Directors
